

COUNTY OF LOS ANGELES

REGISTRAR-RECORDER/COUNTY CLERK

12400 Imperial Highway – P.O. Box 1024, Norwalk, California 90651-1024 – www.lavote.net

DEAN C. LOGAN

Registrar-Recorder/County Clerk

October 28, 2008

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

**PUBLIC HEARING TO INCREASE REAL PROPERTY RECORDING FEES BY \$1.00
AND APPROVE AN AGREEMENT WITH THE COUNTIES OF
ORANGE, RIVERSIDE AND SAN DIEGO FOR SHARED OWNERSHIP OF A
MULTI-COUNTY ELECTRONIC RECORDING DELIVERY SYSTEM
(All Supervisorial Districts) (3 Votes)**

**CIO RECOMMENDATION: APPROVE (X) APPROVE WITH MODIFICATION ()
DISAPPROVE ()**

SUBJECT

Approval to add a fee of \$1.00 to the recordation of real property documents to support electronic recording pursuant to Assembly Bill 578 known as the Electronic Recording Delivery Act of 2004 (AB 578) and request approval of an agreement with the counties of Orange, Riverside, and San Diego for the acquisition and ongoing maintenance of a multi-county electronic recording system. The system will enhance County's recording process to be more efficient and effective and will expedite the availability of electronic recording in Los Angeles County.

IT IS RECOMMENDED THAT YOUR BOARD AFTER THE PUBLIC HEARING:

1. Approve establishment of a one dollar fee (\$1.00) for recorded real property documents for all costs associated with the electronic recording delivery system.
2. Introduce, waive reading and place on subsequent agenda for adoption the attached ordinance (Attachment I) amending the County Code, Title 2 – Administration, Chapter 2.32 of the Los Angeles County Code by establishing section 2.32.085 to implement a new fee as authorized by AB 578 for electronic recording of real property documents.

3. Approve the attached Multi-County agreement ("Agreement") (Attachment II) for Los Angeles County ("County") to participate with the counties of Orange, Riverside and San Diego in the purchase and ongoing maintenance of an electronic recording system (the "System"). Each county ("Owners") will pay an equal share of the acquisition cost of \$2.52 million and the annual maintenance cost estimated at \$100,000 per county. The Agreement will commence upon execution by all counties and shall continue for a period of five consecutive years with an automatic renewal of an additional five years unless sooner terminated or extended as provided in the Agreement. The Chief Executive Office (CEO) Information Technology (IT) Fund allocated the initial \$730,000 funding for this project. The ongoing maintenance costs beyond the first year will be offset by revenue from the statutory surcharge assessed on recorded real property documents.
4. Authorize the Registrar-Recorder/County Clerk to execute the Agreement, negotiate and amend, or terminate the Agreement as necessary provided County Counsel approval is obtained prior to initiating any such action.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The purpose of the recommended action authorizing the RR/CC to charge an additional fee of \$1.00 pursuant to AB 578, for recording a real property document will defray the costs incurred to support the System and comply with the State Department of Justice (DOJ) regulations, including oversight by the State Attorney General (AG).

AB 578 (Gov. Code, §§ 27390-27399), authorizes county recorders in California to accept digitized electronic documents and certain digital electronic documents for recordation pursuant to the provisions and regulations developed by the DOJ. Electronic recording will provide authorized submitters (title insurers, underwritten Title Companies, institutional lenders, and government entities) with the ability to submit digitized and certain digital documents electronically through a single port to participating counties. The program enables the counties to improve and modernize its systems of recording and handling real property documents by permitting the delivery, recording, and return of real property documents electronically. The ability to electronically record documents will reduce processing time, staff workload, and material costs associated with managing paper copies and manually maintaining databases. On August 30, 2005, your Board adopted a Resolution for County participation in the State of California Electronic Recording Delivery Act of 2004 (Attachment III).

The Multi-County Agreement is to provide Los Angeles County with an equal ownership of an electronic recording system. The Multi-County Agreement is a collaborative effort between the counties of Los Angeles, Orange, Riverside and San Diego to allow authorized statewide and national submitters to record documents electronically via a portal. The benefits of this portal include reduced cost to individual counties, closer communication between Southern California title companies and service providers, and quicker, streamlined confirmation times for title companies and other submitters.

The System enables customers submitting significant numbers of documents for recording, to do so by computer, receive direct communication from the County Recorder, and monitor recording status via computer. It also enhances the document recording provided to financial and real estate customers by making it easier, faster and more cost effective. Further, the System facilitates the recording process by dramatically reducing the processing time, staff workload, and material costs associated with managing paper copies. Entering into an agreement with other Southern California counties to share in the ownership and ongoing maintenance of an electronic recording delivery system will be cost effective and enable a more efficient and timely document recording process.

The counties of Los Angeles, Riverside, and San Diego will also benefit from the 132 established business partnerships that Orange County has in place. Implementation of this System will encourage customers to submit documents electronically due to the ability to easily and efficiently record with multiple counties. It will also reduce labor costs for repetitive work such as indexing and scanning documents as well as mailing costs associated with returning paper documents. The System also enhances the document recording services provided to financial and real estate customers by making it easier, faster and more cost effective.

Implementation of Strategic Plan Goals

This request supports the County Strategic Plan as follows:

Goal No. 1: Service Excellence: Provide the public with easy access to quality information and services that are both beneficial and responsive. The System will automate manual record keeping, improve recording efficiency, provide better quality copies, and expedite recording of real property documents.

Goal No. 2: Workforce Excellence: Enhance the quality and productivity of the County workforce. The System will convert the current manual paper-based system of recording real property documents to an electronic format which will, among other things, eliminate hand processing of paper documents, thus improving workforce utilization, efficiency and effectiveness.

Goal No. 3: Organizational Effectiveness: Ensure that service delivery systems are efficient, effective, and goal-oriented. The System provides users with an efficient and effective means to record real property documents electronically and facilitates information sharing with other participating counties.

Goal No. 4: Fiscal Responsibility: Strengthen the County's fiscal capacity. By participating in the multi-county cooperative system, as opposed to buying its own system, the County is potentially saving millions of dollars in acquisition and maintenance costs as well as start-up costs and staff time. The use of the revenue generated from the additional fee assessed on recorded documents will allow the County to provide enhanced services at no additional cost to the County.

FISCAL IMPACT/FINANCING:

The Orange County Clerk-Recorder incurred the initial acquisition cost of \$2.52 million for the electronic recording delivery system. Each Owner county will pay an equal share of the acquisition cost, ongoing annual maintenance cost and an equal share of the cost for any required modifications, enhancements, or repairs not covered under general maintenance.

The initial \$730,000 funding for the System was provided through the CEO's Information Technology Fund approved by your Board on April 1, 2008 (Attachment IV). Additionally, with the approval of your Board on August 30, 2005 (Attachment III), the RR/CC paid approximately \$679,445 to DOJ for participation in the State's electronic recording system. This cost, as well as the annual maintenance cost, and any future cost will be offset by revenue from the \$1.00 statutory surcharge which will be assessed on recorded real property documents.

Pursuant to AB 578, a county recorder implementing an electronic recording delivery system may assess an additional fee of up to \$1.00 to defray the cost of the System. Subsequent to the public hearing and subject to Board approval, the RR/CC will begin to assess and collect an additional \$1.00 fee for each real property document recorded to cover all costs related to electronic recording. The Auditor-Controller concurs that a fee study is not required as the fee would be rounded to the nearest dollar and cannot exceed the \$1.00 fee allowed by legislation. The revenue collected will be accounted for in a budgeted special revenue fund with all related program expenses charged to the dedicated account. The RR/CC anticipates collecting approximately \$2 million per fiscal year with projected revenue in the current fiscal year for the period of December 1, 2008 through June 30, 2009 being approximately \$1.1 million.

Under the Multi-County Agreement, Orange County will act as the lead county. Other counties may join in the collaboration with the approval of the four Owners (Los Angeles, Orange, Riverside, and San Diego). Each additional county ("Participants")

will be required to share in the annual maintenance cost which will reduce the cost to all participating counties.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

The Electronic Recording Delivery Act of 2004 (AB 578) was signed into law on September 21, 2004. The act added Article 6 (commencing with Section 27390) to Chapter 6 of Division 2 of Title 3 of the Government Code relating to county recorders, making an appropriation therefore, and declaring the urgency thereof, to take effect immediately. The legislative action authorized county recorders to establish electronic recording systems for the electronic recording of digitized and certain digital real property documents and requires the AG to develop regulations for review, approval, and oversight of the program. AB 578 requires a Memorandum of Understanding (MOU) with the State; approval by resolution of the Board of Supervisors; and required interested counties to submit a Letter of Intent to the DOJ. The RR/CC submitted the Letter of Intent to the DOJ on June 17, 2005 and upon Board authorization on August 30, 2005, executed the MOU with the DOJ on November 3, 2005. The MOU with the DOJ was for one year and automatically renews in one-year increments unless terminated by either party.

AB 578 requires any county establishing an electronic recording system to pay the DOJ for the ongoing cost of regulation and AG oversight and allows counties to establish a fee of up to one dollar (\$1.00) per recorded document to support the program. Government Code section 54985 authorizes the Board of Supervisors to set a fee that is otherwise authorized to be levied by another provision of law in the amount reasonably necessary to recover the cost of providing any product or service. Government Code section 27397(c)(1) authorizes a county to impose a fee up to and including one dollar (\$1.00) for each instrument recorded to pay the costs associated with the electronic recording delivery system. In addition to the cost of the system and ongoing maintenance, each participant pays the DOJ an allocated share of the direct costs. The cost to each county is determined by the total number of real property documents recorded during the previous calendar year.

The Orange County Clerk-Recorder purchased the ownership rights to an electronic recording delivery system that will be jointly owned and ultimately used by many counties in California. The Multi-County Agreement provides the acquisition, implementation, training, hosting, and support of a system known as the Statewide Electronic Courier Universal Recording Environment ("SECURE"), which will be compliant with AB 578. SECURE will support vendor specific connections to county back-end users; supply electronic recording application program interface to potential participant counties; and will work with potential submitters to install software and provide training.

SECURE will provide all submitters a collective means to submit digitized and certain digital documents electronically to participating counties. Once the document is submitted through the multi-county system, each county will use its own recording, cashier and land records system to retrieve, record, and maintain the document. This cost effective system will help facilitate the unification and sharing of software, without altering the various counties' operations or current practices.

Orange County will host the system and is responsible for the acquisition, installation, implementation, support, and training. However, the Owner counties will all have an equal vote in any decisions, including but not limited to, enhancements, modifications, and maintenance to the System. The county recorder or his/her designee will act as the appointed representative for each county to exercise its vote. A county may withdraw from the Agreement upon providing 60 days written notice to the other Owner counties.

On February 5, 2008, the Orange County Board of Supervisors approved the purchase of the SECURE system and a multi-county agreement for the shared ownership of the System. Based on the collaboration of the Owners respective County Counsel representatives, an amended Multi-County Agreement was adopted by the Orange County Board of Supervisors on August 19, 2008. Riverside County Board of Supervisors adopted the Agreement on July 29, 2008 and San Diego's Board of Supervisors adopted the Agreement on September 16, 2008.

CONTRACTING PROCESS:

The Multi-County Agreement was developed in collaboration between the respective county counsels for each Owner county. This is a government to government collaboration. There was no additional contracting process associated with the recommended Agreement.

The Chief Executive Office has reviewed and approved this Board letter. County Counsel has reviewed this Board letter and approved the Multi-County Agreement as to form.

The Living Wage Program (County Code Chapter 2.201) does not apply to the recommended Agreement.

IMPACT ON CURRENT SERVICES:

Board approval of the proposed surcharge will enable the RR/CC to collect fees to offset the cost of implementing the electronic recording program which will enhance the real property document recording process. County's participation in the Multi-County Agreement will provide Los Angeles County with a cost effective means to electronically

The Honorable Board of Supervisors
October 28, 2008
Page 7

record real property documents. Electronic recording is paperless to the County. The delivery, recording, document maintenance, and return to the submitter, is all done electronically. It will also reduce cost to the County by transferring responsibility for mailing the recorded documents to real property owners back to the submitter.

CONCLUSION:

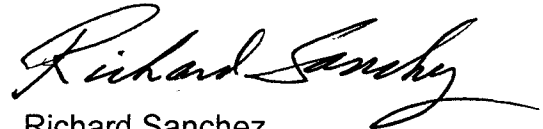

Upon approval of the recommended Agreement, it is requested that the Executive Officer/Clerk of the Board, return one adopted stamped copy of the approved Board letter to County of Los Angeles, Registrar-Recorder/County Clerk, 12400 Imperial Highway, Room 7201, Norwalk, CA 90650, Attention: Ngozi Ume, Manager, Finance and Management Division

Respectfully submitted,

Dean C. Logan

Project/Contract Description:

The Registrar-Recorder/County Clerk (RR/CC) is requesting Board approval to:

1. Establish a one dollar (\$1.00) fee for electronic recording of real property documents.
2. Adopt an Ordinance to amend County Code to implement a new fee as authorized by AB 578 for electronic recording of real property documents.
3. Enter into a Multi-County Agreement with the counties of Orange, Riverside and San Diego for the purchase and ongoing maintenance of an electronic recording system.
4. Authorize the RR/CC to execute the Agreement, negotiate, amend or terminate the Agreement as necessary provided County Counsel approval is obtained.

Each county involved in this Multi-County Agreement will be a co-owner of the system and pay an equal share of \$2.52 million acquisition cost and the annual maintenance estimated at \$100,000 per county. The term of the Agreement is five years, with an automatic renewal of five years, unless sooner terminated or extended. The Chief Executive Office IT Fund allocated \$730,000 for this project. Ongoing maintenance costs beyond the first year will be included in the departmental operating budget.

This CIO Analysis focused strictly on the Agreement for the purchase and maintenance of the electronic recording system. Matters related to the \$1.00 surcharge are addressed by the RR/CC and County Counsel.

Background:

On February 5, 2008 the County of Orange acquired the ownership rights to an electronic recording delivery system called the Statewide Electronic Courier Universal Recording Environment (SECURE). This system is to be shared and used by a number of counties. This Agreement is a government-to-government collaboration that will enable Los Angeles, Orange, Riverside and San Diego counties to share equally in the ownership, cost and maintenance of a multi-county electronic recording delivery system. Orange County will be the lead county and will coordinate the service preferences of the Agreement and enable implementation, training, hosting and support of the system.

Governance covering enhancements, modifications and maintenance to the system will be made by the four counties. A majority vote of the four counties will be required to allow other counties to participate in the use of the system. New members will be responsible for a portion of the ongoing maintenance costs. The original and any copies of the software will remain the property of the counties.

Project Justification/Benefits:

This system will enable Los Angeles County to receive and process recorded documents through an electronic recording system. It is compatible with the RR/CC's recently implemented Enterprise Recording Archive system, and will integrate into the workflow and management processes. Electronic recording will provide authorized submitters (title insurers, institutional lenders and government entities) the ability to submit digital documents electronically. Electronically recorded documents will reduce processing time, staff workload and material costs associated with managing paper copies and manually maintaining databases.

Project Metrics:

The RR/CC will measure the effectiveness of this system by tracking the reduction in mail and associated postage. The RR/CC will also track how many documents are electronically recorded and how much manual labor is reduced.

Impact on Service Delivery or Department Operations, If Proposal Is Not Approved:

Board approval of the recommended actions will allow the RR/CC to collaborate with other counties in the State, conduct business electronically and better utilize its staff. The system will convert the current manual paper-based system of recording real property documents to an electronic format.

Alternatives Considered:

The alternative considered was to develop an in-house eRecording solution which would be costly and delay the RR/CC's ability to implement an electronic recording system.

Project Risks:

The principal risk with a collaborative effort of this type is that the program partners may not fulfill their roles and responsibilities.

Risk Mitigation Measures:

To address the above risk, County Counsel working with the participating counties developed a comprehensive Multi-County Agreement. The Agreement covers 17 areas of interest, including term, administration, ownership, cost and modifications.

Financial Analysis:

On February 5, 2008 the County of Orange acquired the ownership rights to a Statewide Electronic Courier Universal Recording Environment (SECURE) system at a cost of \$2.52 million. Each of the participating counties will initially pay one-fourth of the system acquisition cost which is \$630,000 plus \$100,000 for the first year of maintenance. Subsequent yearly maintenance of \$100,000 will be paid by each of the participating counties, plus their equal share for any system enhancements.

The aggregated amount for the full term of this agreement will be \$1,630,000 (initial cost \$730,000 plus 9 years maintenance at \$100,000 per year).

The RR/CC is also required to pay the Department of Justice a fee up to \$1.00 for each recorded document for participation in the State's electronic recording system. The RR/CC expects that all of the on-going costs will be covered by the \$1.00 surcharge assessed on recorded real property documents.

CIO Concerns:

None.

CIO Recommendations:

Based on our review of the Board Letter and discussions with the Department, this Office recommends approval of the Multi-County Agreement and related recommended actions.

Ordinance

ANALYSIS

This ordinance amends Title 2 – Administration, Chapter 2.32 of the Los Angeles County Code by establishing section 2.32.085, Filing instruments and records – Electronic recording delivery system fee, which authorizes the county to impose a fee in an amount up to and including one dollar (\$1.00) for each instrument that is recorded by the county to pay the costs of the electronic recording delivery system; the review and approval of vendors and potential authorized submitters; security testing required by the statute and Attorney General regulations; and reimbursement to the Attorney General for regulation and oversight of the electronic recording delivery system.

Government Code section 54985 authorizes the Board of Supervisors to set a fee that is otherwise authorized to be levied by another provision of law in the amount reasonably necessary to recover the cost of providing any product or service.

Government Code section 27397(c)(1) authorizes a county to impose a fee up to and including one dollar (\$1.00) for each instrument recorded to pay the costs associated with the electronic recording delivery system.

ORDINANCE NO. _____

An ordinance amending Title 2 - Administration of the Los Angeles County Code, relating to the recording fees charged to the public by the Registrar-Recorder/County Clerk.

The Board of Supervisors of the County of Los Angeles ordains as follows:

SECTION 1. Section 2.32.085 is hereby added to read as follows:

2.32.085 Filing instrument and records – Electronic recording delivery system fee.

A \$1.00 fee is imposed for each instrument that is recorded by the registrar-recorder/county clerk to defray the costs required to implement and maintain the electronic recording delivery system. This fee shall be in addition to any other fees provided by this Chapter 2.32, or as otherwise provided for by statute.

Attachment II

Multi-County Agreement

**MULTI-COUNTY AGREEMENT BETWEEN THE COUNTIES OF LOS ANGELES,
ORANGE, RIVERSIDE AND SAN DIEGO FOR THE SHARED OWNERSHIP AND ONGOING
MAINTENANCE OF AN ELECTRONIC RECORDING DELIVERY SYSTEM**

This Multi-County agreement (“Agreement”) is made and entered into on the 19th day of August, 2008, between the **Counties of Los Angeles, Orange, Riverside and San Diego**, (“Counties”) political subdivisions of the State of California.

RECITALS

WHEREAS, Assembly Bill 578 (Stats. 2004, Ch. 621, sec. 2), known as the Electronic Recording Delivery Act of 2004, set forth at Title 3, Division 2, Part 3, Chapter 6, Article 6 of the California Government Code (section 27390 et. seq.), authorizes County Recorders in California to accept digitized electronic records and certain digital electronic documents for recordation pursuant to the provisions and regulations being developed by the Department of Justice; and

WHEREAS, the Counties to this Agreement wish to share in the ownership and ongoing maintenance of an electronic recording delivery system, where authorized submitters (title insurer, underwriter title company, institutional lender, and government entities) would have single points of submission with the ability to submit documents to multiple counties;

NOW THEREFORE, the Counties, above mentioned, for and in consideration of the mutual promises and agreements herein continued, do agree to the following:

AGREEMENT

1. Statement of Purpose:

The purpose of this agreement is to allow the Counties to share in the ownership, cost and maintenance of a multi-county electronic recording delivery system. It will be more cost effective for each County to participate in a cooperative system as opposed to purchasing and maintaining a separate system. The electronic recording delivery system has the ability to facilitate access and communication with certain customers electronically that will enable each County’s recording process to be more efficient and timely.

The “Counties” Los Angeles, Orange, San Diego and Riverside are the “Owners” of the electronic recording delivery system and any subsequent additional counties are considered the “Participants.”

2. Term:

The term of this Agreement shall commence upon execution thereof by the Counties and shall continue in effect for a period of five (5) years and will automatically renew for an additional five (5) year period unless terminated or extended as provided herein. The Counties may further extend the term by written agreement

3. **Administration:**

(a) Each party agrees to assign the County of Orange as the Lead County ("Lead County"). The powers, duties and responsibilities of the Lead County are set forth in Exhibit A.

(b) The Lead County will coordinate the service preferences of the Agreement and enable implementation, training, hosting and support of a system known as the Statewide Electronic Courier Universal Recording Environment, "SECURE," which will be compliant with the Electronic Recording Delivery Act of 2004 (AB 578).

(c) The Counties shall each have an equal vote in any decision, including but not limited to, enhancements, modifications and maintenance to the system. The County Recorder or his/her designee shall be deemed the appointed representative of each County to exercise its vote under this Agreement. All voting powers shall reside with the Counties.

(d) SECURE shall be the propriety software used by the Counties.

4. **Ownership:**

(a) Each County shall have an equal share of all rights, title and ownership interest(s), (including but not limited to copyright), in the SECURE system.

(b) The original and any copies of the SECURE software, (including source code), in whole or in part, are and will remain the property of the Counties, and this will be reflected in any agreement with vendors.

(c) Unless otherwise agreed upon by the Counties, all software and related work to be provided by any vendor shall be the sole property of the Counties.

(d) Any vendor hired to modify, enhance, and maintain the software shall have no ownership interest in any software or related work.

(e) Upon majority approval by the Owners, the Lead County shall have the right to transfer and/or distribute software to any other office of the County Recorder within the State of California as "Participants."

5. **Cost:**

(a) The County of Orange shall pay the initial acquisition cost of \$2.52 million dollars. Each County that is a party to this Agreement shall pay an equal share of the initial acquisition costs and annual direct maintenance costs, as provided for in Exhibit B and Exhibit C. Exhibit C applies only to the County of Riverside.

(b) Each County shall deposit their share of the initial acquisition cost and first year's annual support costs of this Agreement in a project account to be established in the name of the Lead

County within sixty (60) days of the effective date of this Agreement. Lead County may only make disbursements from this account with majority approval of the Counties.

(c) The Lead County shall provide to the Counties copies of all billings submitted by and all payments made to any provider of services under this Agreement.

(d) The annual costs which include any adjustments and/or enhancement costs will be reviewed by the Lead County, shared with the other Counties, and adjusted annually as provided for in Exhibit B.

6. **Termination:**

A county may withdraw from the Agreement upon providing sixty (60) days written notice to the other Counties; however, the accumulated capital contribution of the withdrawing county shall remain in the project account for SECURE system use without compensation to the withdrawing county. Each withdrawing county shall remain liable for and shall pay its proportional share of any indebtedness incurred before withdrawing. The withdrawing county shall not be entitled to a credit or refund for any sums paid under this Agreement. The withdrawing county shall not otherwise effect this Agreement.

7. **Indemnification:**

(a) Except as provided in section 7(b), in lieu of and notwithstanding the *pro rata* risk allocation which might otherwise be imposed between the Counties pursuant to Government Code section 895.6, the Counties agree that all losses or liabilities incurred by a county shall not be shared *pro rata*, but instead the Counties agree that, pursuant to Government Code section 895.4, each of the Counties hereto shall fully indemnify and hold each of the other Counties, their officers, board members, employees and agents harmless from any claim, expense or cost (including attorney's fees), damage or liability imposed for injury (as defined by Government Code section 810.8) occurring by reason of that County's negligent acts, omissions, or willful misconduct of its officers, board members, employees or agents, under or in connection with or arising out of any work, authority or jurisdiction delegated to such county under this Agreement. Except as provided in Section 7(b), no county, nor any officer, board member, employee or agent thereof shall be responsible for any damage or liability occurring by reason of the negligent acts or omissions or willful misconduct of other Counties hereto or any provider of SECURE, and their board members, employees or agents, under or in connection with or arising out of the Agreement. It is further understood and agreed the indemnification herein extends to and includes liability which arises by operation of law as the result of any act, omission or occurrence related to this Agreement, or which arises from the work performed relative to this Agreement. Should the legality of this Agreement be challenged, the Counties shall equally share the cost of defense, litigation and any damages award.

(b) Notwithstanding any other provision in this MOU and to the fullest extent allowed by law, the County of Orange shall indemnify, defend and hold harmless the other parties to the MOU and their information and technology vendors (collectively "other parties") from and against any and all claims, demands, suit actions, proceedings, judgments, losses, damages, injuries, penalties, costs (including attorney's fees), expenses and liabilities resulting from a

claim that the SECURE system, in whole or in any part, that is in existence at the time of the execution of this Agreement infringes the intellectual property rights of any third party, including without limitation copyrights, patents, or trademarks. If the SECURE system or any part thereof that is in existence at the time of the execution of this Agreement is held to infringe upon any patent, trademark, copyright, trade secret or other intellectual property or proprietary right of any third party, and other parties' use of the system or any other part thereof, is enjoined or interfered with in any manner, then the County of Orange, at its option, within ninety (90) calendar days of such injunction or interference may: (a) procure for other parties' the right to continue using the system free of any liability for infringement or violation; (b) replace or modify the system with a non-infringing system or product equivalent or better functionality; or (c) in the event the County of Orange is unable, after exercising its best efforts to implement one of the options set forth in subsection (a) or (b) above, accept the return of the system at the County of Orange's sole cost and expense and refund to all other parties an amount equal to the total amount paid by the other parties to the County of Orange for the system less the value attributed to the other parties' use of the system. The value attributed to the other parties' use of the system is the pro-rated amount of the acquisition cost as determined by the number of years the other parties had use of the SECURE system over the expected ten year term of this Agreement. For example, if the other parties had use of the SECURE system for three years at which time the system is deemed infringing and the County of Orange issues a refund under this provision, the other parties would receive a refund of seventy percent of their acquisition costs. Maintenance costs are not to be calculated into the refund amount.

8. Cooperation of parties:

The Counties recognize that full cooperation is essential in handling of data and information contemplated by this Agreement. Unless otherwise provided by law, the Counties agree to provide any data, information, and documentation reasonably necessary to the performance of this Agreement.

9. Modification:

No exceptions, alternatives, substitutes or revisions are valid or binding unless authorized by the Counties in writing.

In the event that a significant system modification is needed, upon majority approval, all Counties shall pay an evenly divided portion of the modification costs.

In the event that a system modification is needed, and the modification be deemed "significant," as referred to in California Code of Regulations, Title 11, Division 1, Chapter 18, Article 6, section 999.167, all Counties to this Agreement shall pay an evenly divided portion of their certification costs to the State of California Attorney General.

10. Additional parties:

Additional counties may participate in the use of the SECURE system upon majority approval of the Counties. Participants will be added by use of a separate Memorandum of Understanding Agreement

created and approved by the Counties. In addition, fees for use of the system by Participants shall be determined and imposed by the Counties.

11. Successors and assigns:

The terms, covenants, and conditions contained herein shall apply to and bind the heirs, successors, executors, administrators and assigns of the Counties.

12. Assignment:

This Agreement shall not be assigned by a county, either in whole or in part, without prior written consent of all Counties. Any assignment or purported assignment of this Agreement by a county without the prior written consent of all Counties will be deemed void and of no legal force or effect.

13. Review for legal adequacy:

Each County acknowledges and agrees that this Agreement has been reviewed and approved as to form by each County's respective legal counsel.

14. Governing laws and venue:

This Agreement has been negotiated and executed in the State of California and shall be governed by and construed under the laws of the State of California. In the event of any legal action to enforce or interpret this Agreement, the sole and exclusive venue shall be a court of competent jurisdiction located in Orange County, California and the Counties hereto agree to and do hereby submit to the jurisdiction of such court, notwithstanding Code of Civil Procedure section 394.

15. Waiver:

No waiver of the breach of any of the covenants, agreements, restrictions, or conditions of this Agreement by any County shall be construed to be a waiver of any succeeding breach of the same or other covenants, agreements, restrictions, or conditions of this Agreement. No delay or omission of any County in exercising any right, power or remedy herein provided in the event of default shall be construed as a waiver thereof or acquiescence therein, or be construed as a waiver of a variation of any of the terms of this Agreement.

16. Severability:

If any term or portion of this Agreement is held to be invalid, illegal, void or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this Agreement shall continue in full force and effect.

17. Notices:

All notices, billings, or other communications provided for in this Agreement shall be sent by postage prepaid first class mail to the respective Counties as provided in this paragraph.

The County of Los Angeles:

Sharon A. Gonterman
Assistant Registrar-Recorder/County Clerk
12400 Imperial Highway, Room 5013
Norwalk, CA 90650

EXHIBIT A

Responsibilities

The County of Orange, as the Lead County, shall perform the following functions:

1. Acquire all ownership rights to SECURE, which will be AB 578 compliant, and utilize guidance from nationally recognized standard setting bodies, which adheres to applicable Federal and State laws;
2. Ensure SECURE will support vendor specific connections to county back end users;
3. Supply Electronic Recording Application Program Interface (API) document to potential partners;
4. Implement, train, host, support and manage ongoing system operations and support capabilities for SECURE;
5. Work with potential submitters to install software and provide training;
6. In collaboration with San Diego, Riverside and Los Angeles counties, promote the SECURE system to other counties and authorized submitters;
7. Manage the SECURE accounts (approval/denial/suspension) for all county administrators;
8. Encourage the widespread adoption of the SECURE system;
9. Provide a mechanism for additional counties to join as Participants of SECURE on a ongoing fee basis;
10. Perform such other functions as are required to accomplish the purpose of this Agreement;
11. Serve as a liaison with the Office of the California Attorney General and the Counties to ensure that all standards are being met;
12. Select and manage server hosting facilities based on security, disaster survivability, and business continuity requirements;
13. Manage installation testing, and final acceptance of SECURE system modification/enhancements;
14. Work with the Counties and Participants to achieve certification of system;

15. Develop ongoing system management procedures and policies; and
16. Develop and manage process for system upgrades, enhancements, and support.

Powers

With the approval of the Counties, the Lead County shall have the authority to:

- a. Employ agents and employees;
- b. Make and enter into contracts for support and maintenance; and
- c. Perform all other acts reasonable and necessary to carry out the purpose of this Agreement.

EXHIBIT B

Costs

The Lead County, shall:

- a. Receive and receipt for all money of SECURE and place it in a special established fund designated solely to SECURE;
- b. Be responsible upon his or her official bond for the safekeeping and disbursement of all SECURE money held by him or her;
- c. Annually collect the direct maintenance costs for SECURE for each County. The initial annual direct maintenance cost is estimated at \$100,000 per County;
- d. Review the annual costs for SECURE, to include any adjustment and/or enhancement costs, provide the results of the review to the Counties, and adjust them annually to only include direct costs;
- e. Disburse, when due, out of SECURE funds, all sums payable on outstanding bills and money owed approved by the Counties;
- f. Issue checks to pay demands against SECURE which have been approved by the Counties;
- g. Be responsible on his or her official bond for his or her approval of disbursement of SECURE money;
- h. Keep and maintain records and books of accounts on the basis of the uniform classification of accounts adopted by the State Controller (the books of accounts shall include records of assets, liabilities and of contributions made by each party); and
- i. Cause to be made an annual audit of the accounts and records of SECURE as prescribed in California Government Code sections 6505 and 26909.

EXHIBIT C

Riverside County shall deposit its share of the first year's annual support costs of this Agreement in a project account to be established in the name of the Lead County within sixty (60) days of the effective date of this Agreement. Riverside County shall also deposit its share of the initial acquisition cost incrementally, upon the occurrence of the following milestones:

1. The sum of \$100,000 within sixty (60) days of the effective date of this Agreement.
2. The sum of \$200,000 upon the mutual satisfaction of the Lead County and Riverside County of the development of the tasks and responsibilities as set out in the *ERDS Baseline Requirements and Technology Standards Matrix*.
3. The sum of \$200,000 when the SECURE system in Orange County is Certified by the California Attorney General.
4. The final payment of \$130,000 when the SECURE software is installed and operational in Riverside County and has been Certified by the California Attorney General.
5. All of the afore-mentioned sums may be disbursed by the Lead County with approval of the Counties.

ADOPTED
BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

6 6

AUG 30 2005

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Violet Varona-Lukens
VIOLET VARONA-LUKENS
EXECUTIVE OFFICER

Dear Supervisors:

**RESOLUTION FOR PARTICIPATION IN THE
STATE OF CALIFORNIA
ELECTRONIC RECORDING DELIVERY ACT OF 2004
(All Districts) (3 Votes)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Adopt a resolution (Attachment I) approving the County of Los Angeles (County) participation in the State of California Electronic Recording Delivery Act of 2004 as enacted by Assembly Bill No. 578; and authorize the Registrar-Recorder/County Clerk (RR/CC), or her designee, to execute a Memorandum of Understanding (MOU) substantially similar to Attachment II with the California Department of Justice (DOJ) for County participation in the Electronic Recording Delivery System.
2. Authorize the RR/CC, or her designee, to amend or terminate the MOU as needed provided that County Counsel approval is obtained prior to executing an amendment or termination.
3. Authorize the RR/CC, or her designee, to negotiate and execute Submitter Agreements, in accordance with the rules and regulations established by the California Attorney General for use with Title companies and lending institutions who wish to submit Real Property records electronically, providing County Counsel reviews said Submitter Agreement and approval as to form is obtained.

4. Pursuant to Government Code section (GC) 27397(c) (2) & (3), authorize the RR/CC, or her designee, provided that approval by the Board of Supervisors is obtained and the matter is brought before a public hearing, to 1) impose a fee upon any vendor seeking approval of software and other services as part of an electronic recording delivery system and 2) impose a fee upon any person seeking a Submitter Agreement
5. Delegate the authority to the RR/CC, provided that approval by the Board of Supervisors is obtained and the matter is brought before a public hearing, to assess a statutory surcharge on recorded Real Property instruments and to increase or decrease the fee as needed, up to a maximum charge not to exceed one dollar (\$1.00) per document to offset the cost of the Electronic Recording Delivery System.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to allow the County participation in the California Electronic Recording Delivery System. Participation in the program will enable the County to improve and modernize its systems of recording and handling Real Property instruments by permitting the electronic delivery, recording and return of specified instruments.

Implementation of Strategic Plan Goals

This request supports the County Strategic Plan as follows:

Goal No. 3: Organizational Effectiveness: Ensure that service delivery systems are efficient, effective, and goal-oriented. Approval of the recommended action will convert the current manual paper-based system of recording Real Property instruments to an electronic recording delivery system which will greatly improve efficiency and effectiveness, and service delivery to County residents

FISCAL IMPACT/FINANCING

Pursuant to AB 578, GC 27393 requires the Attorney General to develop regulations for review, approval and oversight. GC 27397 requires any county establishing an E-recording system to pay the Attorney General for cost of regulations and oversight and allows county recorders to establish a new fee up to one dollar (\$1.00) per recorded document to cover cost to Attorney General, E-recording system, the review and approval of vendors and authorized submitters, and security testing. The total fees assessed by a county can not exceed the reasonable cost for maintaining the system and Attorney General oversight.

The initial cost to the County to participate in the Electronic Recording Delivery System, which was determined by the total number of Real Property instruments recorded during the 2004 calendar year, is \$252,249. The cost will be paid from the Recorder Modernization Trust Fund monies. Thereafter, the annual cost will be determined by the total number of Real Property instruments recorded in the previous calendar year. The annual cost and any other service related costs will be paid by the statutory surcharge assessed on recorded Real Property instruments. There is no impact to the NCC.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

AB 578 was signed into law on September 21, 2004 and took effect immediately. The legislative action authorized county recorders to establish electronic recording systems for the electronic recording of Real Property instruments and requires the Attorney General to develop regulations for review, approval and oversight of the program. AB 578 requires an MOU by participating counties; approval by resolution of the Board of Supervisors; and requires interested counties to submit a Letter of Intent. As such, RR/CC submitted the Letter of Intent (Attachment III) on June 17, 2005 as a notice of interest to participate in the program.

In September 2005, the DOJ will mail an MOU substantially similar to Attachment II to counties that submitted a Letter of Intent. The terms of the MOU are negotiable to meet the specific needs of each participating county. RR/CC will work with County Counsel to ensure County requirements are met and secure County Counsel approval as to form prior to submitting MOU to DOJ. The final signed MOU is due to the DOJ on October 14, 2005.

The Chief Administrative Office has reviewed and approved this Board letter. County Counsel has reviewed this Board letter and approved as to form the attached resolution.

IMPACT ON CURRENT SERVICES

Approval of the recommended action will provide a fast, efficient, and effective method of recording Real Property instruments to better serve County residents.

The Honorable Board of Supervisors
August 30, 2005
Page 4 of 4

CONCLUSION

Upon approval of the recommendation, it is requested that the Executive Officer/Clerk of the Board return one originally stamped copy of the adopted Board letter to:

County of Los Angeles
Registrar-Recorder/County Clerk
12400 Imperial Highway, Room 7201
Norwalk, CA 90650

**RESOLUTION OF THE COUNTY OF LOS ANGELES
BOARD OF SUPERVISORS
APPROVING THE COUNTY OF LOS ANGELES
PARTICIPATION
IN THE
ELECTRONIC RECORDING DELIVERY ACT OF 2004**

**RESOLUTION OF THE COUNTY OF LOS ANGELES BOARD OF SUPERVISORS
APPROVING THE COUNTY OF LOS ANGELES PARTICIPATION IN THE
ELECTRONIC RECORDING DELIVERY ACT OF 2004**

WHEREAS, California Assembly Bill No. 578 of 2004 has been enacted to authorize a county recorder to establish an Electronic Recording Delivery System for the recording of specified digitized and digital electronic records; and

WHEREAS, said legislation requires a resolution from the County of Los Angeles Board of Supervisors to authorize County participation in the Electronic Recording Delivery System; and

WHEREAS, AB 578, GC 27397 authorizes a county recorder to impose a fee in an amount up to and including one dollar (\$1) for each Real Property instrument that is recorded by county; and

WHEREAS, AB 578, GC 27397 (c) (2 & 3) authorizes a county recorder to impose a fee upon any vendor seeking approval of software and other services as part of an electronic recording delivery system and upon any person seeking a Submitter Agreement; and

WHEREAS, the California Attorney General has been delegated the authority and responsibility for establishing regulations and the regulation and oversight of the Electronic Recording Delivery System; and

NOW, THEREFORE, BE IT RESOLVED that the County of Los Angeles Board of Supervisors:

1. Approves the County participation in Electronic Recording Delivery Act of 2004;
2. Appoints the County of Los Angeles Registrar-Recorder/County Clerk, or her designee, as agent to conduct all negotiations and execute and submit all documents which may be necessary for the completion of the aforementioned project.
3. Approves the County of Los Angeles Registrar-Recorder/County Clerk, or her designee, as agent, to impose a fee to be adopted by the Board of Supervisors and after a public hearing, in an amount up to and including one dollar (\$1) for each Real Property instrument that is recorded by the County.
4. Approves the County of Los Angeles Registrar Recorder/County Clerk, or her designee, as agent to impose a fee to be adopted by the Board of Supervisors and brought before a Public Hearing, upon any vendor seeking approval of software and other services as part of an electronic recording delivery system and to impose a fee upon any person seeking a Submitter Agreement.
5. Approves the County of Los Angeles Registrar Recorder/County Clerk, or her designee, as agent to issue payments to the California Attorney General through the Department of Justice for County's allocated share of the direct cost of program oversight.

The foregoing resolution was on the ____ day of August, 2005, adopted by the Board of Supervisors of the County of Los Angeles and ex-officio the governing body of all other special assessment and taxing districts, agencies and authorities for which said Board so acts.

VIOLET VARONA-LUKENS, Executive

Senior Deputy County Counsel

Electronic Recording Delivery System
Costs for Developing and Implementing Regulations
Memorandum of Understanding

NOTE: Each county's Memorandum of Understanding (MOU) will be written to meet their individual county needs, including for multiple years

Parties

This Memorandum of Understanding (MOU) is between the California Department of Justice, hereinafter, referred to as "DOJ" and the County of _____, hereinafter referred to as "County."

Purpose

The purpose of this MOU is to comply with the Electronic Recording Delivery Act of 2004 (Gov. Code, §§ 27390-27399; "Act")¹ It is the intent of the Legislature "to develop a system to permit the electronic delivery; recording, and return of instruments affecting right, title, or interest in real property." (Stats. 2004, ch. 621, § 1, subd. (a).) The purpose of the electronic recording delivery system is to enable the County to improve: and modernize the counties' systems for recording and handling documents by permitting the electronic delivery, recording and return of specified instruments.

Acknowledgments

Both County and DOJ acknowledge that under the Act specific statutory duties must be performed *before* a county puts its electronic recording system into operation. For example, the Attorney General must adopt regulations "for the review, approval, and oversight of electronic recording delivery systems" (§ 27393); evaluate and certify the system selected by each county (§§ 27391, subd. (a); 27392, subd. (a)); "approve software and other services" (§ 27392, subd. (b)); establish a list of approved computer security auditors (§ 27394), after conducting criminal background checks (§ 27395); and certify that each county's submission method will be secure (§ 27397.5, subd. (d)). These initial duties of the Attorney General bring with them "start up" costs--costs that cannot be adequately met by the Act's scheme of generating revenue through the collection of recording fees authorized in section 2739. Furthermore, each county is responsible for paying the costs of developing, operating, and monitoring its electronic recording system. (§ 27397, subd. (a).) :

"(a) A county establishing an electronic recording delivery system under this article *shall pay for the direct cost of regulation and oversight by the Attorney General.*"

¹ Hereafter, references to the Government Code are by section number only.

Agreement

DOJ and County hereby consent and agree that County will pay DOJ for an allocated share of the direct cost of developing and implementing regulations and other costs in support of the Electronic Recording Delivery Act (ERDA) of 2004, as set forth in Article 6 (commencing with Section 27390) to Chapter 6 of Division 2 of Title 3. The development of regulations is being pursued to enable the Attorney General to provide review, approval and oversight of electronic recording delivery systems.

General Provisions

County agrees to pay DOJ for an allocated share of the direct costs of developing and implementing regulations which may include all or part of the following direct costs: staff, consultant, and vendor costs for program development and implementation including hearings, meetings, travel, site visits, minutes, mailing, legal review of regulations, procedure and forms development, advertisement, and drafting and writing of regulations. Continuation of this Memorandum of Understanding beyond the first year will allow the DOJ to issue a new estimated cost figure for the next fiscal year without the necessity of a new Letter of Intent from the County. Continuation of this Memorandum of Understanding beyond the first year shall allow the DOJ' to include the cost of regulation and oversight.

County to County Formula

The direct cost of establishing the regulations and regulation and oversight is allocated to each county by the total documents recorded and filed as reported to the Office of the Insurance Commissioner, as provided in Government Code section 27296, for the previous year. The formula to determine a county's proportionate cost is set by the total documents recorded and filed per individual counties divided by the total documents recorded and filed by all participating counties. The percentage figure obtained for each county is applied to the estimated annual costs of the Attorney General to arrive at an individual county figure.. .

Estimated Cost of the Attorney General

The estimated costs of the Attorney General are those costs projected to be incurred in the next fiscal year and the costs incurred to date in establishing the regulations. County agrees to pay the DOJ for actual expenditures incurred and in accordance with the estimated costs specified herein, which is attached hereto and made a part of this MOU. The County shall annually provide the total documents recorded and filed as reported to the Office of the Insurance Commissioner, as provided in Government Code section 27296, for the previous year. The DOJ shall issue an annual estimated cost to the County based on the Cost to County Formula. The estimated cost to the County will be incorporated herein by reference.

Payback and/or Carry Over

If the actual costs exceed the estimated costs, the parties will amend this MOU to capture the additional costs. If the total actual costs are less than the estimated costs, DOJ will provide a refund to the County or allow for a carry over and credit toward the next Fiscal year at the County's discretion.

DOJ Reporting

DOJ shall report to the County every ninety (90) days on the expenditures made by the DOJ in developing and implementing regulations.

Payment

County shall pay to DOJ a lump sum of the estimated cost to the County, as incorporated herein by reference, toward the direct cost to be incurred by DOJ. Said lump sum payment to be delivered to DOJ within thirty (30) days of execution of the MOU. Payments to DOJ shall be deposited in the Electronic Recording Authorization Account, which is hereby created in the Special Deposit Fund.

Payment shall include a reference to this MOU and shall be made to:

California Department of
Justice Accounting Office
1300 I Street
Sacramento, CA 95814

Term of MOU

The term of this MOU will be from the date this MOU is signed by the DOJ and County MOU representatives until the end of the next fiscal year. An MOU will automatically renew unless one or both parties object or there are modifications to the MOU which would require mutual agreement and signatures by both parties.

A County Recorder reserves the right to terminate this MOU upon thirty (30) days written notice to the DOJ, however, no refund of start-up costs for establishing the regulations will be granted. Refunds of payment toward regulation and oversight will be prorated as incurred in the fiscal year at the time of termination. Upon termination of the Memorandum of Understanding without the mutual intent of the parties to renew, the County Recorder shall cease operation of its electronic recording delivery system.

MOU Representatives

The MOU representatives during the term of this MOU will be:

County of	Department of Justice
Name: Phone:	Name: Paul Pane

Dear Supervisors:

**CHIEF EXECUTIVE OFFICE INFORMATION TECHNOLOGY FUND ALLOCATIONS
(ALL DISTRICTS AFFECTED) (4 VOTES)**

SUMMARY

A Chief Executive Office (CEO) Information Technology (IT) Fund of \$25 million was established in July 2007 to provide departments with one-time funding for creative, innovative IT projects that improve the efficiency and effectiveness of County programs and services. In October 2007, the CEO invited departments to submit projects for funding. A total of 92 projects were submitted by departments. After reviewing the various projects, ten projects were initially recommended for funding. Two projects (Board of Supervisors, Executive Office Board Room and Kiosks) were approved in the mid-year Budget Adjustment. The remaining eight projects are covered in this letter (totaling \$8.7 million). The purpose of the recommended action is to obtain Board approval to transfer funding from the Designation for Information Technology to the appropriate budget units to implement the recommended projects.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve an Appropriation Adjustment for the Fiscal Year 2007-08 Adopted Budget to transfer \$8,684,000 from the Designation for Information Technology Enhancements to the appropriate budget units to implement information technology projects recommended by the Chief Executive Office that improve countywide operations.

JUSTIFICATION OF RECOMMENDED ACTION

The recommended projects will provide important public benefits, including improved public access to services, increased operational efficiencies, and potential multi-department applications. In addition, the recommended IT projects effectively utilize the integrated system of service delivery and demonstrate the value of department collaboration to achieve cost savings through improved operations and service delivery from a countywide perspective.

Implementation of Strategic Plan Goals

The recommended action is consistent with the County's Strategic Plan Goal No. 3, Organizational Effectiveness, which is to ensure that service delivery systems are efficient, effective, and goal-oriented. In addition, as the projects span each of the County's programmatic service areas, the recommended action will also serve to bolster and improve service delivery consistent with the Programmatic Strategic Plan Goals.

FISCAL IMPACT/FINANCING

The funds are currently in a general fund designation. This is one-time funding for projects that are outside of the regular budget requests. Ongoing maintenance costs will be met using existing department operational budget and staffing allocated to IT maintenance.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The recommended projects are listed in the table below, totaling \$8,684,000. The attached provides further detail on each recommended project. Additional projects are still under consideration for funding, and we will return to your Board later in the fiscal year with further recommendations, as appropriate.

RECOMMENDED PROJECT	DEPARTMENT	PROJECT COST
Alternate Public Defender, District Attorney, and Public Defender - Remote Access/WiFi Pilot Program	Information Systems Advisory Body (ISAB)	\$2,695,000
Sheriff, Probation, and Fire Department - Automated Employee Scheduling System Pilot Program	Sheriff	\$1,000,000
New County Emergency Management System	CEO, Office of Emergency Management	\$1,000,000
Unified Directory	Public Health	\$270,000
Los Angeles County Housing Resource Center - Expansion Project	Community Development Commission	\$739,000
Seamless Cadastral Landbase	Public Works	\$2,000,000
Los Angeles, Orange, San Diego, and Riverside Counties - Multi-County Electronic Recording Delivery System	Registrar-Recorder/ County Clerk (RR/CC)	\$730,000
New Financial Forecasting Tool	CEO, Budget	\$250,000
		\$8,684,000

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The recommended projects will impact current services by:

- **Providing access to department databases and network resources remotely to better serve clients in the field.** For example, the Remote Access/WiFi Pilot Program will allow attorneys to access department network resources while at the courthouse representing or meeting with clients.

- **Improving information sharing with other agencies.** For example, the new County Emergency Management System will coordinate the County's emergency response and provide information sharing with local, State, and Federal agencies. The Housing Resource Center expansion will increase information sharing among homeless shelters and databases for all County departments to utilize. The RR/CC eRecording System will automate manual record keeping and provide information sharing with other counties in the Southern California region making it easier for the public and businesses to track land records.
- **Expanding existing Web-based systems and replacing outdated systems to increase and improve functionality.** For example, the Unified Directory will replace the existing system with a unified network directory infrastructure, thereby providing a single point of management.
- **Performing complex analysis in a more timely and accurate manner.** The New Financial Forecasting Tool will provide the ability to perform complex multi-year forecasting and budget scenarios that will improve the timing and accuracy of financial forecasts.

The operational improvements, as well as improved services provided and program participation, will be measured and tracked. Departments will provide baseline measures of current operations. From these baseline measures, improvements will be projected as quantifiable targets, expected outcomes, and estimated cost savings, as applicable. Process improvements, such as enhanced workflow, improved efficiencies, and streamlined processes will be tracked and reported.

Respectfully submitted,

WILLIAM T FUJIOKA
Chief Executive Officer

INSTRUCTION SHEET FOR PUBLISHING
LEGAL ADVERTISEMENTS

TO: Executive Officer
Board of Supervisors
County of Los Angeles

FROM: Department of Registrar-Recorder/County Clerk
Finance and Management Division

**SUBJECT: NOTICE OF PUBLIC HEARING - AB 578 ELECTRONIC RECORDING
DELIVERY ACT FEE INCREASE**

Pursuant to Section 66018 of the California Government Code, prior to adopting an ordinance proposing a new fee, a local agency shall hold a public hearing. In accordance with Section 6062a of the California Government Code, the Executive Officer shall publish notice of the hearing. Publication of the notice shall be for ten days in a newspaper regularly published once a week or more often. Two publications, with at least five days intervening between the dates of the first and last publication, not counting such publication date are sufficient. The period of notice commences upon the first day of the publication and terminates at the end of the tenth day, including therein the first day.

Forward five reprints of the attached advertisement to the County of Los Angeles Department of Registrar-Recorder/County Clerk, Finance and Management Division, attention: Rosario Longoria, 12400 Imperial Hwy, Room 5203, Norwalk, CA 90650.

If there are any questions in this regard, please contact Ms. Longoria at (562) 462-2905, Monday through Friday, 8:00 a.m. to 6:00 p.m.

**NOTICE OF PUBLIC HEARING
ON PROPOSED AMENDMENT TO COUNTY CODE, TITLE 2 – ADMINISTRATION
TO ESTABLISH A FEE FOR RECORDATION OF REAL PROPERTY DOCUMENTS
TO SUPPORT ELECTRONIC RECORDING DELIVERY PURSUANT TO
AB 578 ELECTRONIC RECORDING DELIVERY ACT**

Electronic Recording Delivery Fee Ordinance: The proposed ordinance will amend the Los Angeles County Code, Title 2 – Administration, Section 2.32 relating to the recording fees charged to the public by the Registrar-Recorder/County Clerk (RR/CC). The ordinance will add Section 2.32.085 to impose a \$1.00 fee for each instrument recorded by the RR/CC to defray the costs required to implement and maintain the electronic recording delivery system.

Notice is hereby given that a public hearing will be held by the County of Los Angeles Board of Supervisor in connection with the \$1.00 fee for recording of real property documents. Said hearing will be held on _____ at 9:30 a.m., in the hearing room of the Board of Supervisors, Room 381B, Kenneth Hahn Hall of Administration, 500 West Temple Street (corner of Temple Street and Grand Avenue), Los Angeles, CA 90012.

Documentation on the proposed fee will be available at the Executive Office of the Board of Supervisors, Kenneth Hahn Hall of Administration, 500 West Temple Street, Room 383, Los Angeles, CA 90012. The Board of Supervisors will consider and may adopt the proposed fee. Further notice is given that the Board of Supervisors may continue this hearing from time to time.

Written comments may be sent to the Executive Office of the Board of Supervisors at the above address. If you do not understand this notice or need more information, please contact Rosario Longoria of the RR/CC at (562) 462-2905, Monday through Friday, 8:00 a.m. to 5:00 p.m. or email at rlongoria@rrcc.lacounty.gov.

ADA Accommodations: The County can provide program information and publications in alternative formats or make other accommodations for persons with disabilities by calling (562) 462-2905 72 hours in advance.

Si no entiende este anuncio o necesita mas informacion, por favor de llamar (562) 462-2905, de Lunes a Viernes de 8:00 a.m. - 5:00 p.m.
