UseCaseID	UC-AFF012
Module	Affidavits / Voter Registration Cards
SubModule	
Summary	Research affidavits returned. RR/CC does not expect a one-to-one relationship with the outlined steps so long as the outcomes / results are met.
Description	This use case allows staff to identify the total amount of affidavits returned from an account holder or for a group of designated account holders over a specific date range
Trigger Event	▪ Staff needs to find information about the affidavits returned ▪ Staff receives a request for information on the affidavits returned
Precondition	▪ Staff has appropriate user access rights to the system
ExpectedResult	▪ Staff can view all pertinent Affidavit Inventory information

DetailedProcessFlow	1. Staff selects option to search for Affidavit Account holder or to generate report detail from a selected set of parameters including date, group, or an identified set of account holders
	2. If necessary staff identify a specific range assigned to an account holder
	    2.1.1. The system shall display returned information for the selected affidavit range or all affidavits included in the set of parameters for the report. Information display includes but not limited to:
	        2.1.1.1. Total Returns
	        2.1.1.2. Active
	        2.1.1.3. Cancelled
	        2.1.1.4. Pending
