UseCaseID	UC-CAN012
Module	Candidate
SubModule	
Summary	View and manage measure information
Description	Staff needs to view, update, or delete information on measures at various times in the election process for various reasons. This use case assists staff in finding, viewing, update, or deleting information about measures.
Trigger Events	▪ Staff identifies a need search, update, or delete for candidate information.
Precondition	▪ Staff has appropriate user rights to the system
ExpectedResult	▪ The results of inquiry are displayed for staff. ▪ The system saves changes to measure if updated or deleted.

DetailedProcessFlow	1. Staff selects the option to search for measure with information about the voter
	  1.1. The system shall provide a list of fields that can be used to search for a measure. Measure information fields include but not limited:
	    1.1.1. Name
	    1.1.2. Identification number
	    1.1.3. Pass rate
	    1.1.4. Text line Number
	2. Staff enters the information that they have about the measure.
	  2.1. The system shall provide the ability to autogenerate the identification number
	  2.2. The system shall provide the ability for staff to spell check entered text
	  2.3. The system shall provide the ability count and display the number of characters entered in for each text field
	  2.4. The system shall have the ability to calculate and display the total number of characters entered for all the measure text fields
	  2.5. The system shall provide the ability for staff to bold, underline and italic characters in the text
	  2.6. The system shall provide the ability to limit the amount of text that can be entered for each text line.
	  2.7. The system shall jump directly the candidate record when the search results in a single match.
	  2.8. The System shall be able to define the type of Measure (I.e. countywide, statewide, or local).
	  2.9. The System shall allow staff to enter Measure Pass Rate in an election.
	3. Staff may make updates or delete Measure information.
	  3.1. The system shall allow staff to update or delete measure information.
	  3.2. The System shall have the ability to allow Users to save the measure text at any time.
	4. The System shall log changes.

Alternative Work Flow	▪ NA
Associated Use Case	▪ Create candidate office
Parent	[Parent id of the Use Case as documented in Project Scope or Business Case]

Requirements	UC-CAN012-01 The system shall provide a list of fields that can be used to search for a measure. Measure information fields include but not limited:
	1. Name
	2. Identification number
	3. Pass rate
	4. Text line Number
	UC-CAN012-02 The system shall provide the ability to autogenerate the identification number.
	UC-CAN012-03 The system shall provide the ability for staff to spell check entered text.
	UC-CAN012-04 The system shall provide the ability count and display the number of characters entered in for each text field
	UC-CAN012-05 The system shall have the ability to calculate and display the total number of characters entered for all the measure text fields
	UC-CAN012-06 The system shall provide the ability for staff to bold, underline and italic characters in the text
	UC-CAN012-07 The system shall provide the ability to limit the amount of text that can be entered for each text line.
	UC-CAN012-08 The system shall jump directly the candidate record when the search results in a single match.
	UC-CAN012-09 The system shall be able to define the type of Measure (I.e. countywide, statewide, or local).
	UC-CAN012-10 The System shall allow staff to enter Measure Pass Rate in an election
	UC-CAN012-11 The system shall allow staff to update or delete measure information.
	UC-CAN012-12 The system shall have the ability to allow Users to save the measure text at any time.
	UC-CAN012-13 The system shall log changes.
