Media Procedures on Election Day

Inside the Polling Place
Media may take pictures or run a television camera inside the polling place providing they respect the voters’ privacy and do not interfere with voting. Media may not speak to any voters, election clerks, poll watchers or any other individuals while inside the polling place.

Outside the Polling Place
Clearly identified members of the news media may be within 25 feet of a polling place. Media may only speak with individuals at the prescribed distance of 25 feet from the entrance of the polling place. However, voters may not be photographed, videotaped or filmed entering or exiting a polling place, and may not be filmed inside the polling place without the voter’s permission (EC 18541).

Media must follow general observer guidelines provided at each election polling place:

The polling place inspector is responsible for the decorum of the polling place and for ensuring that the polling process is carried out as efficiently and smoothly as possible. News media wishing to observe the polling process should first check in with the polling place inspector. News media should arrange with the polling place inspector as to the location for observing the process without causing any disruption. This includes setups for cameras. Inspectors are not authorized spokespersons for the Registrar-Recorder/County Clerk.

Polling places are not available to the media before the polls open at 7 a.m. to ensure pollworkers have adequate time to properly set up the polling place and prepare for voters.

The hours between 5 p.m. and 7 p.m. are when the polls may be busiest and the uncoordinated presence of observers can be most disruptive. Therefore, coordination with the inspector during this time period is essential. If news media wish to observe during this period, they should be respectful of pollworkers’ priorities and check in with the inspector first. Cooperation between media and the polling place officials is necessary so that the objectives of public observation, voter convenience and privacy can be achieved.

Transporting Ballots for Tabulation

On Election Night, ballots from all 4,786 voting precincts are brought to the Registrar-Recorder/County Clerk’s (RR/CC) headquarters in Norwalk for tabulation.

After the polls close at 8 p.m., pollworkers will secure the voted ballots in sealed ballot boxes and account for unused ballots. Pollworkers will also separately package Vote by Mail ballots that were dropped off at the polls and Provisional ballots. All materials and quantities are accounted for in the Official Ballot Statement. Then pollworkers from the 4,786 election precincts bring ballots and supplies to one of 33 designated check-in centers located throughout the County.

Sheriff Deputies transport the voted ballots from the check-in centers by car or helicopter to Norwalk. Ballots come in from as far away as Lancaster, Palmdale and Catalina Island.

Between 10:30 – 11:30 p.m. a large number of ballots begin to arrive at RR/CC headquarters.

Prior to tabulation, all ballots must be checked in, removed from boxes, inspected and prepared for counting.

Ballots are moved to the tabulation center in a continuous flow. There, operators load the ballot cards onto card readers.

There are eight counting stations, each with two card readers, for a total of 16 card readers.

Because there is no specific order of processing/counting, ballots from locations closer to Norwalk are combined with ballots from more distant destinations. Therefore, ballots from locations close to Norwalk are not necessarily counted first.

Thousands of dedicated individuals are involved in ballot transportation, preparation and tabulation. Los Angeles County is the largest county electoral jurisdiction in the U.S.
There are three categories of ballots that cannot be processed on Election Night:

1. Vote by Mail ballots (those turned in at voting locations and those received by mail just before or on Election Day).
2. Provisional ballots voted at the polls.
3. Write-in ballots.

**Vote by Mail Ballots Turned in at Polling Locations**

Many Vote by Mail voters drop off their ballots at a polling place or at RR/CC headquarters on Election Day. The RR/CC receive these ballots very late on Election Night. All Vote by Mail ballots must be pre-processed before they are counted. The RR/CC must verify every Vote by Mail voter’s signature prior to opening the Vote by Mail ballot envelopes to remove the ballots in preparation for counting.

**Provisional Ballots**

Provisional ballots are issued at the polls when a voter’s name is not listed on the poll roster, uncertainty about party affiliation or when our records indicate the voter was already sent a Vote by Mail ballot. Provisional ballots are sealed in special envelopes at the polls and must be individually researched and verified at the Registrar-Recorder/County Clerk’s office before ballots are counted or rejected in accordance with election laws. Once a Provisional voter’s eligibility to vote is verified, the ballot is counted.

**Ballots with Write-in Votes**

When a voter chooses to vote for a write-in candidate whose name is not printed on the ballot, that ballot cannot be counted on Election Night. Each ballot containing a write-in vote must be individually reviewed to determine whether the write-in vote is for a qualified write-in candidate and whether the voter over-voted (example: voted for a candidate on the ballot and also voted for a write-in candidate for the same office). When an over-vote occurs, neither vote can be counted, the rest of the ballot selections will be counted. Due to the individual scrutiny involved, no portion of any ballot containing a write-in vote is counted on Election Night. ([Vote tallies for write-in candidates are not available until the conclusion of the official canvass because each ballot containing a write-in vote is processed and tallied manually.](#))
**1% Manual Tally Audit**

By law, a random sample of ballots from every election must be manually tallied to verify election night machine counts. A minimum of all votes cast in one percent (1%) of the precincts is included in this process. The Vote at Polls and Vote by Mail ballots must include all contests and measures on the ballot. The Automatic Manual Tally is open to the public. (E.C. 15360)

**Summary**

Ballot counting after Election Night includes Vote by Mail, Provisional, Write-In, and damaged ballots. These ballots are processed and counted during the Official Election Canvass period. Ballot counting of Vote by Mail, provisional and ballots with write-in votes occurs in sequential order after the election, but before certification of official results (For example, all Vote by Mail ballots must be verified and cleared prior to verifying provisional ballots in order to ensure there are no duplicates among these categories). These ballots are not segregated by district prior to counting. Therefore, the number of outstanding ballots for any specific electoral district is unknown until after these ballots are tabulated.

California State Law requires election authorities to complete and certify results within 28 days. This provision of the law recognizes the complexity of completing the ballot count and conducting a thorough audit of the election results to ensure accuracy.

Outstanding ballot counting is every Friday and Tuesday throughout the canvass period. The first update of the count will begin on Friday, June 8 at 1 p.m. We anticipate the majority of the outstanding Vote by Mail ballots to be included by the Tuesday, June 12 update. Due to the extra research required to validate Provisional ballots, these ballots are usually the last to be tallied prior to the completion of the official canvass. Please note that the 8 p.m. time indicates the start of ballot tabulation. Depending on the number of ballots to be tabulated, updated results may not be available until half past the hour.

Candidates and the public are invited to observe supplemental ballot counting and the manual tally of ballots from the randomly selected 1% of the voting precincts. After Election Night, the schedule of supplemental ballot counting will be posted on the entrance door of our office in Norwalk and on the RR/CC website www.lavote.net.

The RR/CC realizes it is difficult for candidates/campaigns involved in close contests to wait for results of the election. The legally mandated processes described above are utilized to guarantee that every vote is counted and included in the official final election returns.
