InkaVote *Plus*...

What Is InkaVote?

InkaVote is an optical scan voting system.

Voters use an ink marking device to fill in bubbles on the ballot that correspond with vote selections.
Why The *Plus*?

InkaVote Plus is an enhancement to the InkaVote paper ballot voting system used in Los Angeles County elections since November 2003. It consists of three parts:
1. The **voting device** and special ink marker attached. Each voter inserts the ballot into the device securing the ballot over the red pins and then "inks" the ballot card.

2. The **precinct ballot reader (PBR)** sits on top of the ballot box. The PBR checks ballots for overvotes (more selections than a contest allows) and for completely blank ballots and notifies the voter. This provides a second chance to correct errors.

3. An **audio ballot booth** is available to assist voters with special needs. Voters who are disabled, including those who are blind or visually impaired, may vote privately and independently using an audio headset and a simple keypad. Also, voters whose main language is not English may choose to vote an audio ballot in Chinese (Mandarin or Cantonese), Japanese, Korean, Spanish, Tagalog/Filipino or Vietnamese.

How to use InkaVote *Plus* on Election Day

1. Insert ballot. Place holes over **red posts.**

2. Push down **hard** to mark!

3. Check your ballot for **dots.**

Insert ballot into **InkaVote Plus.** It checks for Errors!

4.

Audio equipment also available to assist voters with disabilities or those with alternative language needs!
